INTRODUCTION AND GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,400 city, county, state and national Directories, present to subscribers and the general public, this, the 1968 edition of the Saginaw City Directory, which also includes Carrollton.

Confidence in the growth of Saginaw's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Saginaw to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Saginaw Directory will fulfill its mission as a source of authentic information pertaining to the community.

Four Major Departments

The four major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business section, which embraces a list of the names and addresses of all business and professional concerns of the community, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the community. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified community like Saginaw, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the second major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Saginaw and Carrollton, and the name, official personnel, nature and address of each firm and corporation.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner occupied homes, the listing of telephone numbers and Zip Code numbers.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Saginaw.

The Saginaw Directory Library

Through the courtesy of the publishers of the Saginaw City Directory, a Directory Library is maintained in the offices of the Greater Saginaw Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in cities and towns throughout the United States, Canada and Puerto Rico by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO.,
Publishers.

SAGINAW

"THE HUB OF NORTHERN MICHIGAN"

City of Diversified Industry
Center of Agriculture
Gateway to Michigan's Vacation Land

(Courtesy Greater Saginaw Chamber of Commerce)

Area—17.23 square miles.

Altitude—581 feet above sea level.

Climate—Mean annual temperature 48.5 degrees F.; average annual rainfall, 24.9 inches.

Parks and Recreation—Saginaw has several parks including beautiful Hoyt Park which is a natural bowl with excellent lighting for baseball in season and is used for winter sports. Ojibway Island is a beautiful picnic ground with tables, stoves, and recreational facilities. Other areas are being developed to keep step with the growing population, one of which is Wickes Park, a beautiful river-front park including picnic facilities and recreational equipment. The City's recreational program offers many activities for youth and adults and a year around supervised recreational program which includes lighted softball and hardball diamonds, tennis courts, municipal swimming pools and winter sports.

Financial Data—5 banks: Second National Bank of Saginaw, with 9 branches; Michigan National Bank; Valley National Bank; First Savings & Loan Assn.; Saginaw Savings & Loan Assn; Community State Bank (Shields); Frankenmuth State Bank.

Churches—Over 100, representing all denominations.

Real Estate—Approximately 29,300 dwelling units: 65.5% owner occupied.

Industry—The many industries producing diversified major products insure to the manufacturer and worker both a stable labor supply and demand. Products manufactured in Saginaw and distributed throughout the world are aluminum; bronze; grey iron and malleable iron castings; steel forgings; automotive and aviation parts; baking and confectionery equipment and machinery; bean pickers; blue print machines; boilers and tanks; bottled beverages; bricks and concrete blocks; caskets; chemicals; cleaning compounds and soaps; conveying systems; corsets and girdles; fertilizer; food and meat products; gears; graphite and graphite lubricants; motor brushes and bearings; truck bodies; iron and steel fabricated products; mattresses; medicines; metal stampings; mobile homes; paint; paper boxes; plastic products; rules; tapes; machinists tools; precision measuring equipment; small tools; machine tools; sugar; wash boards and ironing tables; wash tubs; window shades; shade rollers and venetian blinds; power and manual steering gears. These products and many more make Saginaw a city of diversified industry.

Trade Area—Retail outlets some of the finest stores in Northeastern Michigan serving a radius of 50 miles. Wholesale area embraces northeast portion of Lower Peninsula.

Newspapers—1 daily and Sunday and 4 weeklies.

Radio Stations—3, also 2 T V stations.

Hotels—The Hotels in the area insure adequate accommodations and excellent convention facilities.

Motels—Several ultra modern motels are within easy access to the city.

Railroads—3: Chesapeake & Ohio, New York Central and Grand Trunk Western.

Highways—Interstate 75 (Expressway); State 13, 46, 47, 81 and 84.

Airports—1 private operated, 1 municipal, and the Tri-City Airport, fourth largest in the state, with 3 runways over 5,000 feet and a new \$1.6 million Terminal Building, included with which are motel and restaurant facili-

ties. Commercial service for Saginaw, Bay City and Midland, the cities operating the Tri-City Airport. Two of the major airlines serving Tri-City Airport have jet service. 150,000 passengers use the Airport annually.

Aerial View, Saginaw East Side Business District

Amusements—Largest auditorium in city seats 2,800 persons, moving-picture theatres, drive-in theatres; golf courses, public swimming pools; Little Theatre, museum. A huge new $6.5 million civic center complex is planned, and is expected to be in operation by late 1969.

Medical Care—There are four modern hospitals within the City, all of which are continuously expanding their facilities. A Veterans Administration Hospital and Saginaw County Hospital are also located adjacent to the City. There are numerous private medical buildings, clinics, and doctors offices.

Education—Both the public and parochial school systems are constantly adding classrooms to meet the increasing enrollments. The public school system has two senior high schools, one technical high school, five junior high schools, and 26 elementary schools. The parochial schools (Catholic) are seven high schools and five elementary schools. The Lutheran schools are one high school and seven elementary schools. Delta Junior College and Saginaw Valley College, a newly opened four-year institution, offer the area well balanced education facilities. There is also a business school.

City Statistics—City Government—City Manager, with 9 councilmen elected at large. The Fire Department is equipped with all the modern apparatus, adequately staffed and rated among the best in the State. Police Department is well trained and manned to give excellent police protection.

Water Supply—Is pumped approximately 70 miles from Lake Huron. It is unusually soft (3.5 grains per gallon) and very palatable. From this source an adequate supply is assured. Disposal System - A $8,000,000 disposal system provides complete sewage disposal. City Plan - Of comprehensive nature, provides for future streets, sewers, zoning, transportation, recreation, civic center, school sites, and flood control.

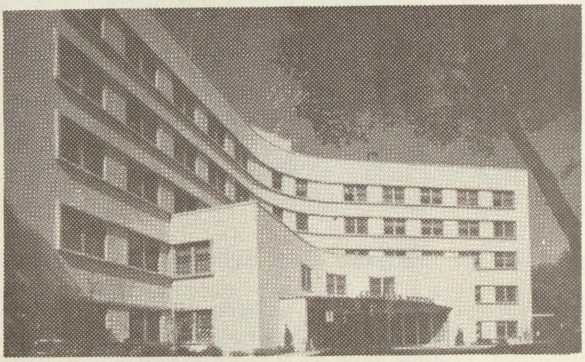
General View of the City

Saginaw is a well-built modern city with beautiful school buildings, parks, playgrounds and residential sections. About 65.5% of the families own their homes.

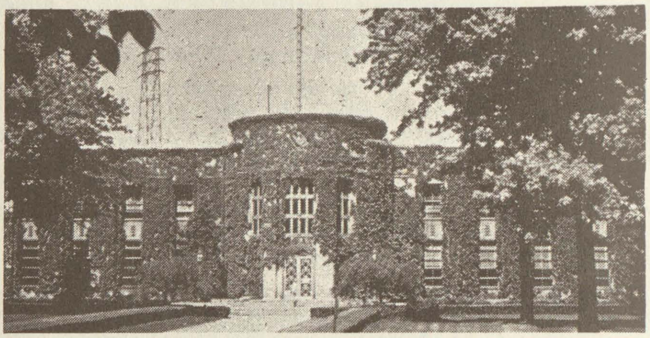
Saginaw is the business gateway of northeastern Michigan, located in Saginaw County, on Saginaw River, 93 miles north of Detroit, and 15 miles from Saginaw Bay, on Lake Huron. It is the rich, active, trade and banking center of a prosperous industrial and agricultural territory.

The present city of Saginaw was founded in 1890 by the consolidation of Saginaw City and East Saginaw, on opposite sides of the Saginaw River. Saginaw City was settled in 1822, and East Saginaw was laid out by New York capitalists in 1849. The two cities for years were the center of the nation's lumber industry. Saginaw is situated 581 feet above sea level and has an area of 11,024 acres, or 17.23 square miles.

Population	City	County
1900	42,345	81,222
1910	50,510	89,290
1920	61,903	100,286
1930	80,715	120,717
1940	82,794	130,468
1950	92,918	153,515
1960	98,265	190,752
1964	100,600	196,000
1965	101,300	202,000
1966	101,600	202,600



St. Luke's Hospital



Saginaw City Hall

From every standpoint Saginaw is a good city in which to live and make a living. The recreational facilities, all within the city limits, includes parks, playgrounds, swimming and wading pools, full-time recreation centers with programs of recreation under the supervision of a staff of competent directors.

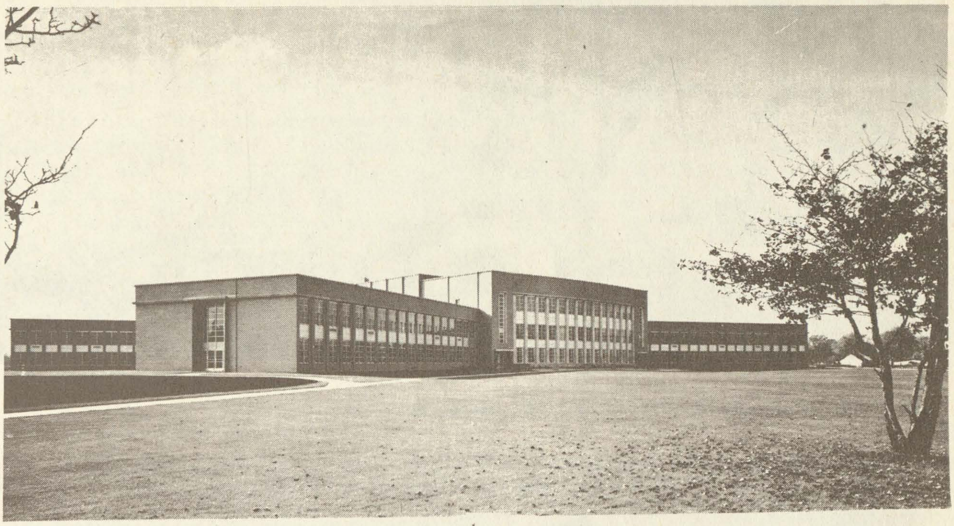
The city provides the best education facilities possible with 26 grade school locations, five junior high schools and two senior high schools and one technical high school. The parochial schools (Catholic) are seven high schools and five elementary schools. The Lutheran Schools are one high school and seven elementary schools. There is also a business school.

Parking—is provided for by metered curb spaces, off street lots, garages and a triple deck parking structure. Every office or store in the primary districts is two blocks or less from a parking lot.

Saginaw has progressed rapidly in the construction of new public buildings and facilities. Since 1950 two new hospitals have been dedicated, several new medical buildings opened, and several schools completed, together with a number of school building expansions. A new east side high school was completed in 1954 at a cost of over $4,000,000. Also a number of churches have been newly built or remodeled.

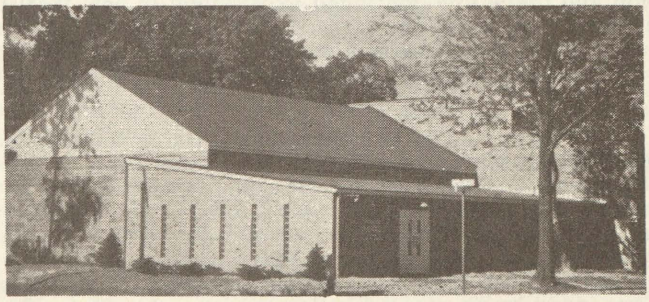
The Saginaw Community Chest, a federation of 24 social service organizations, is supported through the one annual United Chest Campaign, which also raises funds for the Red Cross and 33 other agencies, most belonging to the County units of the State United Health and Welfare Fund. In 1951 the Council of

Community Services replaced the old Social Planning Council. Sixty-nine local, civic, professional, labor and social service organizations participate in health, welfare and recreational planning through the council.



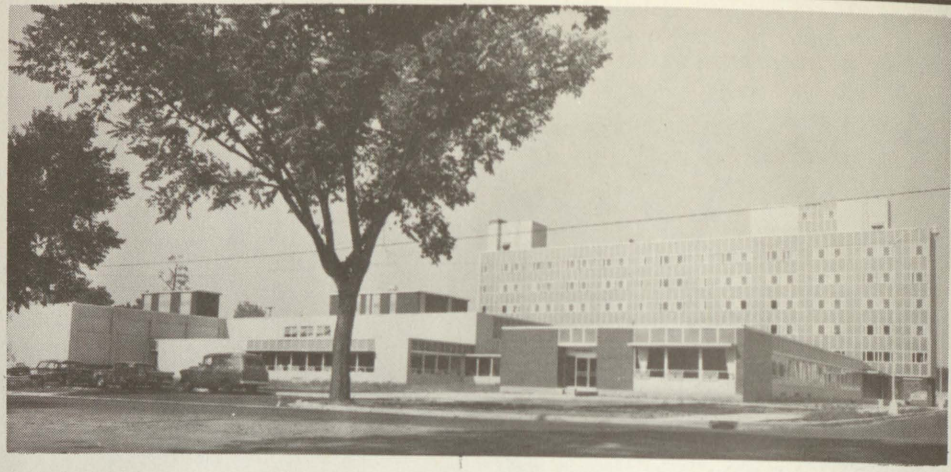
Saginaw High School

Chamber of Commerce Building



Pit and Balcony Theatre

The city has over 100 churches and missions; several theatres; many clubs with buildings; a daily newspaper, published evenings and Sundays, with a local circulation in excess of 60,000; three radio stations, and two television stations.



Y. M. C. A.

Hotel Bancroft

Saginaw's Tri-City Airport, operated jointly by the City of Saginaw, City of Midland and Bay County, built under the direction of the U. S. Department of Commerce, has made necessary provisions for aviation, including a new Terminal with dining facilities, an Instrument Landing System, two companies with charter facilities, car rentals, air freight service, Cessna & Piper Aircraft Sales, lighting system, hangars, fuel supply, etc. An F. A. A. Control Tower is now in operation and there are continued expansions in new facilities which will benefit air travelers using the airport. Jet service was inaugurated by both airlines on April 28th and by mid summer 90% of all flights will be by jet. Tri-City Airport is located twelve miles northwest of the city on two paved highways.

Saginaw is the center of the fertile Saginaw River Valley, one of the finest agricultural districts in Michigan, often referred to as the "Garden Spot of Michigan." The county ranks fourth in Michigan as a producer of cash farm crops which include beans, wheat and sugar beets. There are large elevators for adequate storage of the beans and wheat and the local sugar factory refines 42,000,000 pounds annually. The Saginaw Fair, largest county fair east of the Rockies, features the most complete agriculture show in the Midwest. Farm crop exhibits exceeded by no other fair in amount and variety. Seven big days and nights, beginning the Sunday following Labor Day.

Saginaw is a premier industrial location in the central portion of lower Michigan. Its prosperity is founded upon bed rock. The city's history includes a great lumber boom, this having been known at one time as the lumber capital of the world. In 1882 the Saginaw production amounted to 1,011,274,605 feet of lumber and 295,046,500 wooden shingle pieces. Saginaw now has a well rounded economy, including diversified agriculture, industry and commerce. It is well

located for additional industrial expansion.

Labor conditions are remarkably good, living facilities are adequate, and splendid transportation is afforded through three railroad systems, waterways, and a network of concrete highways.

Saginaw has a reputation for being a friendly city with the latch string always out and the visitor always welcome. Saginaw also beckens new business and industry. It has much to offer newcomers in its varied and stable employment, as well as commercial and professional opportunities.

Labor—There is an abundant supply of capable, intelligent labor, both male and female, skilled in many lines. Nearly 86% of the workers are American-born, with less than 2% illiterate. 65.5% of the families in Saginaw own the homes in which they live.

Transportation—Three great railroads enter the city - the Chesapeake & Ohio (five divisions), Grand Trunk Western and New York Central. Saginaw is noted for its ample car supply, because of its extensive railroad connections and large car-repair shops.

The Saginaw River, a direct link with the St. Lawrence Seaway, provides sufficient depth for Foreign and Great Lake Freighters serving a number of local industries.

A complete system of inter-city bus transportation adds further to the convenience of the public.

FUEL AND POWER—The super-electric power system of the Consumers Power Co. assures permanent unlimited power.

CLIMATE AND HEALTH—Saginaw is the gateway to the great summer and winter playground of northeastern Michigan, with a delightful and comfortable summer climate.

Because of the large bodies of water surrounding the peninsula of Michigan, the winters are much less severe than in neighboring states and even in nearby sections of Michigan.

Saginaw's Department of Public Health extends its activities into every phase of public health protection, including school supervision.

WATER SUPPLY—A very adequate supply of "the World's Best Water" (3.5 grains per gallon) is pumped from a choice location in Lake Huron and piped 62 miles into Saginaw's beautifully-designed water works, which is one of the finest known to the engineering field. It has a filter capacity of 25,000,000 gallons, and an average daily pumpage of 14,900,000 gallons.

BANKING AND FINANCE—Saginaw has three banks, amply serving the community and their facilities. There also are two prosperous savings and loan associations located here.

CIVIC STANDARDS—A very efficient government by council-manager form, a welfare organization supervising 24 charitable and character building agencies, splendid churches, a municipal auditorium, ample parks and playgrounds, municipal recreation leadership, women's clubs, luncheon clubs, and a Chamber of Commerce housed in its own building, represent the highest civic attainments.

Wholesale Trade

Through the Wholesale Department of the Greater Saginaw Chamber of Commerce, the wholesalers of the city have carried on a comprehensive program of trade-expansion work, advancing Saginaw's position to the fourth most important distribution center in Michigan.

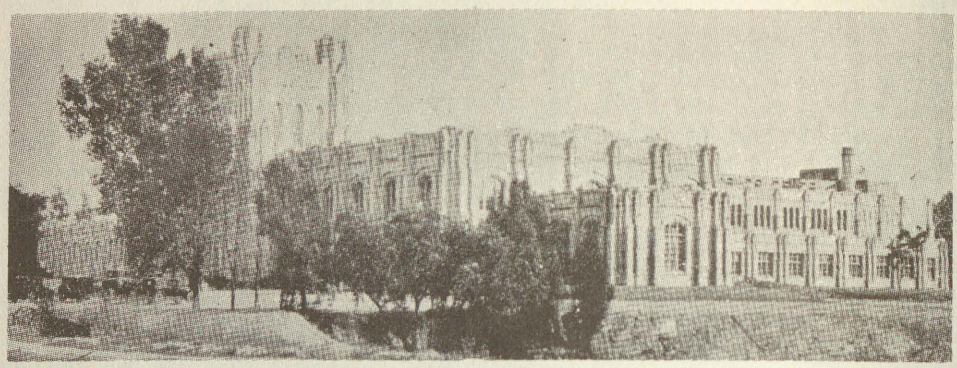
For a number of years the wholesalers have been building goodwill for Saginaw, as well as developing the city's growth as a wholesale center, by conducting numerous "Good-Will Tours," traveling in automobiles to all the towns in the city's trade territory.

Much of the steady expansion in wholesale trade which has characterized Saginaw's progress can be attributed to the splendid cooperation among the members of the Wholesale Department. Saginaw has modern warehouse facilities available.

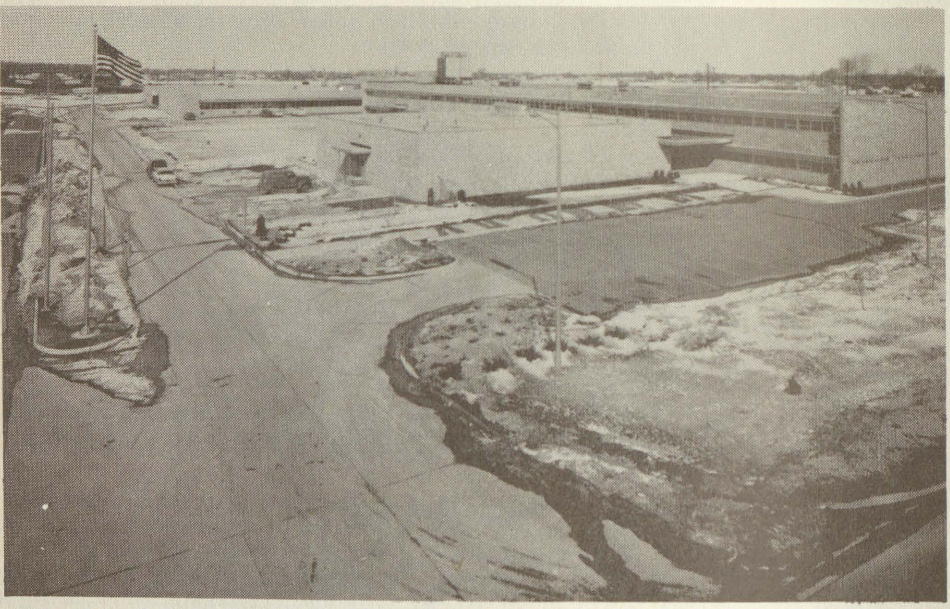
Retail Trade

The retail merchants of Saginaw have been energetic and enterprising in keeping pace with the rapidly-changing conditions in retail distribution. By

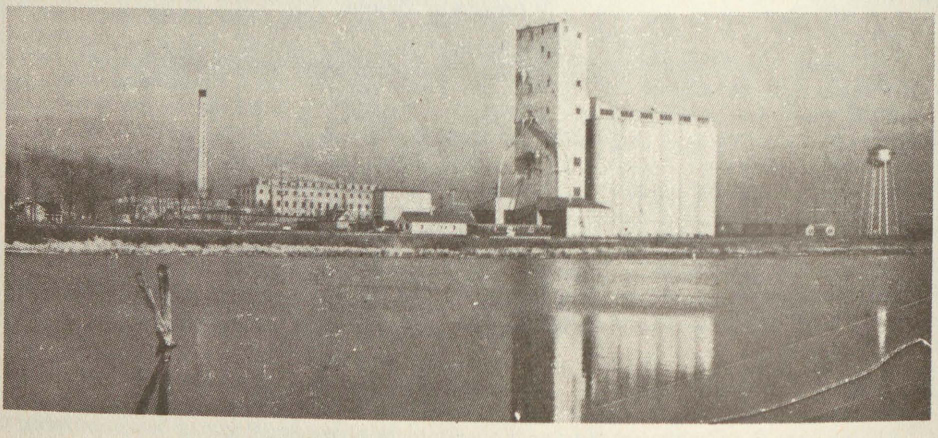
effective cooperation in the Retail Merchants Division of the Chamber of Commerce, they have been able not only to compete with other nearby centers, but have extended their trade territory far beyond its former limits.



Saginaw Water Works

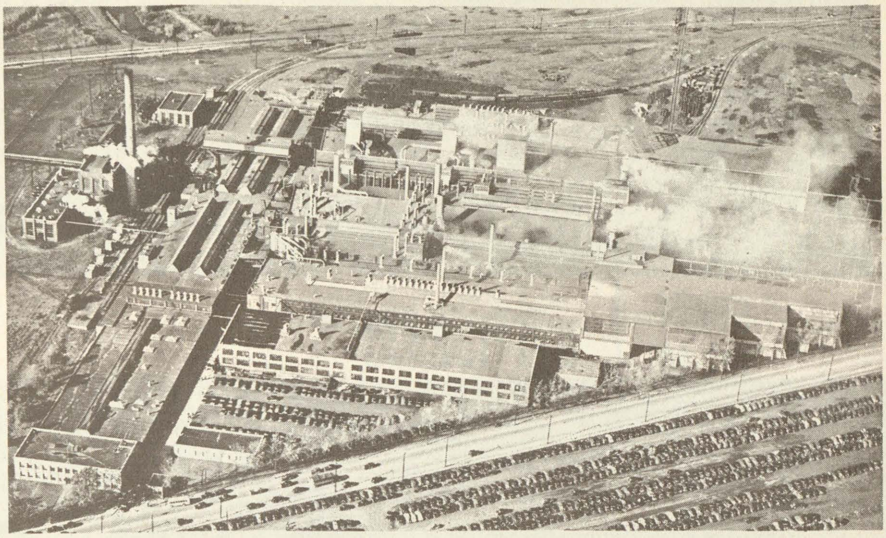


Consumers Power Service Center

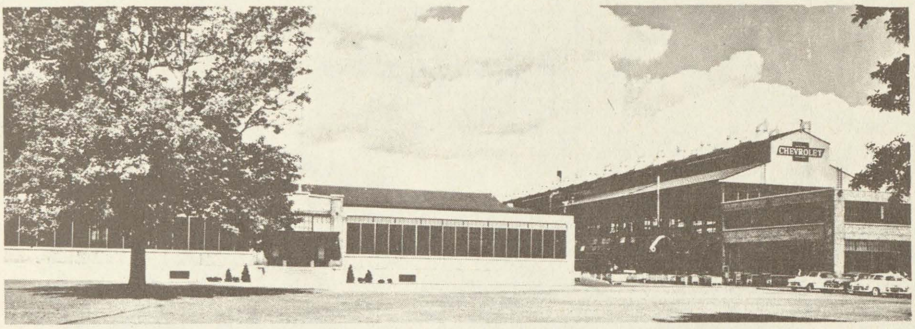


Saginaw Grain Co (Carrollton)

This division is constantly bettering retail service to its customers through the practice of truthful advertising, fair dealing, and safe-guarding the public against promiscuous soliciting and sales schemes.



Aerial View: Chevrolet-Saginaw Foundries, General Motors Corp.



Chevrolet-Saginaw Transmission, Division, General Motors Corp

Promotion of Industry

Promotion of industry in Saginaw is carried on by the Industrial Development Committee of the Greater Saginaw Chamber of Commerce. The Industrial Division also is very active, sponsoring numerous plant tours and general meetings for its members. It also provides detailed service on many regulations affecting industry.

CAUTION . . . . . .

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

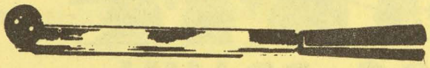
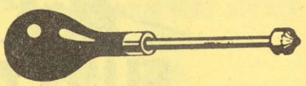
CHATTERLESS COUNTERSINKS

CARBIDE HAND FILE



Often outlasts dozens of regular hand files and can be resharpened to as good as new many times. Better investigate today!

HAND DEBURRING CUTTER



A "twist of the wrist" easily bites off the the burr left by drill or punch

SEVERANCE

REGRINDING

SERVICE

IT PAYS TO HAVE YOUR WORN CUTTERS REGROUND BY SEVERANCE!

New Tools From Old At A Fraction of Original Cost!

HIGH SPEED AND CARBIDE

Your dull rotary cutters, Reground by Severance, give you new tool performance at LOW COST—and YOU control your deliveries.

New-Tool Craftsmen, using the same precise skill and care as they do in grinding new tools, regrind your cutters.

Being the originators of this type of Service, we believe the combined experience of our Engineers and Craftsmen is unsurpassed in this field.

Check up right now on the dull Rotary Files, Burs, Midget Mills, Countersinks, etc., in your plant, and arrange to have them Reground by Severance. High speed and Carbide.

Out of Sight! - Out of Mind! - Out of Business!

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

CAUTION . . . .

Pay no money in advance to itinerant Directory canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting money in advance. Before signing an order, see that it has the name of the publisher of this City Directory printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take advance payment for either advertising or subscriptions.

CASHIERS! TELLERS! CLERKS!

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."
